

global broadband futures

Monday, November 13, 2017

Kirribilli Club, North Sydney, NSW, Australia

Global Broadband Futures is an important new one-day event in Sydney with a difference: it brings together the best carrier technologists and executives from around the world to meet with their Antipodean counterparts.

Access network executives from major American, European and regional operators will share their perspectives on the challenges and opportunities they face in rolling out next generation broadband networks.

Australian telecom firms such as NBN and other competitors in the fixed access space as well as 4G wireless operators will also do the same.

Technology vendors are also being invited to share both their real world learnings and what's on the bench in the laboratories and standards bodies.

Our event mission is based broadly on the international example provided by that of Broadband World Forum where leading subject experts can gather in a respectful forum for knowledge sharing.

This event is for you, if you are:

- retailing or wholesaling broadband services
- involved in public policy making or market analysis
- a network operator, manager or supplier

ABOUT COMMSDAY

Established in 1994, Communications Day is the authoritative source for commercial, regulatory, political and technology news and analysis for telecommunications in Australia and New Zealand. Delivered every working day to a reader base of C-level executives, regulators, politicians and their staff, CommsDay provides essential business intelligence and a key competitive advantage for anyone working in the ANZ telecoms sector.

SPONSORSHIP:

Global Broadband Futures represents an elite gathering of local, regional and international broadband industry experts who inform, advise and specify billion dollar investments in next generation broadband. It is the only event of this type in the Southern Hemisphere this year. To find out more about the opportunities to sponsor, please email Veronica Kennedy-Good of Mindshare at:

veronica@mindsharevents.com.au

CALL FOR PANELLISTS

CommsDay is approaching many participants in the broadband industry to share their expertise at this event. If you think your corporate or professional expertise is suited to one or more of the listed topics please get in touch with Grahame Lynch at:
