

IoT Australia SUMMIT

Wednesday, November 8 2017

Kirribilli Club, North Sydney

IOT AUSTRALIA SUMMIT is the new one day conference on all things Internet of Things.

The summit has two objectives:

- To showcase network and service solutions from telcos who are servicing the needs and requirements of Internet of Things users.
- To identify the use cases for the Internet of Things across significant industry verticals in the Australian economy.

Our one day summit will feature keynotes from the assistant minister for cities, Angus Taylor (invited) as well as peak officials from the Internet of Things Alliance Australia and Communications Alliance.

Much of the event will be made up of panel sessions employing a free flow exchange of ideas and opportunities for audience participation.

PANEL SESSIONS include:

- **TELCOS AND IoT:** Investment and partner strategies, what vendors are doing
- **IoT NETWORK SOLUTIONS:** LTE-M, NBIoT, LoRa and Sigfox
- **IoT's IMPACT ON THE TELCO BUSINESS MODEL:** How the markets view IOT
- **IoT AND THE HEALTH SECTOR:** E-health, remote monitoring and mobile solutions
- **IoT IN CITIES:** Connected transport, interop, sensors, beacons and smart buildings
- **TRANSFORMING VERTICAL INDUSTRIES THROUGH IoT:** Factories: the path ahead, Ultra low power wireless, supply chain management & logistics and smart farming.

ABOUT COMMUNICATIONS ALLIANCE

Formed to provide a unified voice for the Australian communications industry and to lead it into the next generation of converging networks, technologies and services. Communications Alliance offers a forum for the industry to make coherent and constructive contributions to policy development and debate. By providing leadership on new trends and directions, Communications Alliance fulfils a vital unifying role on behalf of the industry and its members, particularly in areas of competition, innovation and industry development.

ABOUT COMMSDAY

Established in 1994, Communications Day is the authoritative source for commercial, regulatory, political and technology news and analysis for telecommunications in Australia and New Zealand. Delivered every working day to a reader base of C-level executives, regulators, politicians and their staff, CommsDay provides essential business intelligence and a key competitive advantage for anyone working in the ANZ telecoms sector.

ABOUT IOTAA

With over 330 member organisations, and over 550 individual participants across seven workstreams the IOTAA is the peak body representing IoT in Australia. We see a thriving future for Australia and the world by connecting data, devices, people, processes and things to the internet to create unparalleled opportunities.

SPONSORSHIP:

CommsDay and Comms Alliance are offering a small number of exclusive opportunities to sponsor IOT Australia Summit.

This represents the best opportunity to reach a wide audience of the key influencers who are building networks serving the needs of IoT applications as well as those who are developing those same use cases.

To find out more about the opportunities to sponsor this event, please email Veronica Kennedy-Good of Mindshare at:

veronica@mindsharevents.com.au

SPEAKERS include:

- ROBERT BOSCH AUSTRALIA & IOTAA'S Gavin Smith
- COMMUNICATION ALLIANCE'S John Stanton
- AT&T's Martin Creighan
- TELSTRA's Andrew Scott
- OPTUS' Allan Burdekin
- NNN CO's Rob Zagarella
- THINXTRA's Loic Barancourt
- KPMG's Piers Hogarth-Scott
- MESHED's Catherine C-McManus
- HUAWEI's Malcolm Shore

REGISTRATION OPENS LATER THIS WEEK:

IOT Australia Summit is offering a 20% discount to all members of Communications Alliance and IOTAA as well as subscribers of CommsDay. Regular price \$497+GST. SPECIAL DISCOUNT PRICE \$397 +GST

INQUIRIES ABOUT SPEAKERS, PROGRAM: Grahame Lynch at grahamelynch@commsdaymail.com

global broadband futures

Monday, November 13, 2017

Kirribilli Club, North Sydney, NSW, Australia

Global Broadband Futures is an important new one-day event in Sydney with a difference: it brings together the best carrier technologists and executives from around the world to meet with their Antipodean counterparts.

Access network executives from major American, European and regional operators will share their perspectives on the challenges and opportunities they face in rolling out next generation broadband networks.

Australian telecom firms such as NBN and other competitors in the fixed access space as well as 4G wireless operators will also do the same.

Technology vendors are also being invited to share both their real world learnings and what's on the bench in the laboratories and standards bodies.

Our event mission is based broadly on the international example provided by that of Broadband World Forum where leading subject experts can gather in a respectful forum for knowledge sharing.

This event is for you, if you are:

- retailing or wholesaling broadband services
- involved in public policy making or market analysis
- a network operator, manager or supplier

ABOUT COMMSDAY

Established in 1994, Communications Day is the authoritative source for commercial, regulatory, political and technology news and analysis for telecommunications in Australia and New Zealand. Delivered every working day to a reader base of C-level executives, regulators, politicians and their staff, CommsDay provides essential business intelligence and a key competitive advantage for anyone working in the ANZ telecoms sector.

SPONSORSHIP:

Global Broadband Futures represents an elite gathering of local, regional and international broadband industry experts who inform, advise and specify billion dollar investments in next generation broadband. It is the only event of this type in the Southern Hemisphere this year. To find out more about the opportunities to sponsor, please email Veronica Kennedy-Good of Mindshare at:

veronica@mindsharevents.com.au

CALL FOR PANELLISTS

CommsDay is approaching many participants in the broadband industry to share their expertise at this event. If you think your corporate or professional expertise is suited to one or more of the listed topics please get in touch with Grahame Lynch at:

grahamelynch@commsdaymail.com

REGISTRATION OPENS LATER THIS WEEK:

Global Broadband Futures is offering a 40% discount to all readers of CommsDay. Regular price \$497+GST. SPECIAL DISCOUNT PRICE \$297 +GST

TOPICS covered:

• The rise of G.Fast and FTTC

What are their best deployment scenarios? How are leading operators implementing and marketing services today?

• DOCSIS 3.1

How cable is beating telcos OS in the broadband wars. The HFC upgrade path

• FTTP and FTTB

How are telcos monetising fibre investments in greenfields? In multi-dwelling buildings?

• FTTN AND THE FUTURE

Everything you need to know about 17a, vectoring, future upgrade paths and the global perspective on FTTN

• LTE & FIXED WIRELESS

How fixed wireless and mobile substitutes are doing more of the heavy lifting for broadband demand worldwide

• BUSINESS MODELS

How telcos justify BB investment and raise a 'genuine' willingness to pay case
